Hospital celebrates staff achievements

Outstanding achievements and years of dedication were recognised at Dorset County Hospital NHS Foundation Trust's annual staff awards presentations.

Colleagues, family, friends and representatives from the Foundation Trust Members' Council gathered in the hospital's Damers Restaurant to celebrate staff receiving individual and team awards as well as long service awards for 15 and 30 years.

Trust Chairman Robin SeQueira, who presented the awards, paid tribute to the staff receiving awards for their many years of commitment and hard work.

He added: "The Trust awards were introduced to give an opportunity for staff to nominate their work colleagues, and that is the strength of the awards. They are not based on a decision that managers have made - it is about staff recognising colleagues who have given outstanding service over and above the call of duty.

"A panel has to make a final judgement on the winners of the awards, but really, everyone who is nominated for an award is a winner."
